– 4-port with 2 cables

### SwitchMan PS/2

2- or 4-port PS/2 KVM Switch

SW2 – 2-port

SW4 – 4-port

### SwitchMan Cable Plus

2-port PS/2 KVM Switch with built in cabling

#### SW2-CP

– 2-port with built in cabling

### Reclaim your desktop; Save space, time and money

SwitchMan is a unique KVM switch that combines advanced, professional-grade technology with an easy-to-use design that fits naturally on your desk.

Color-coded connectors and premium, ultra-thin coax cables make installation easy. The SwitchMan KVM allows control of up to four computers from a single keyboard, video and mouse.

SwitchMan's USB and COMBO models have a built-in USB 2.0 Hub, which allows the sharing of multiple USB-supported devices, including scanners, digital cameras and printers to be shared among multiple computers. Plus, the SwitchMan USB and COMBO models offer audio switching functionality that lets you share a single microphone and stereo speakers among multiple computers.

### Professional performance, low price

SwitchMan includes the same bulletproof reliability as all Raritan enterprise-class products used in over 50,000 data centers world wide. Raritan's KVM switches are designed with "keep-alive" circuitry that eliminates annoying mouse and keyboard lock-ups when switching between computers. No matter how you use SwitchMan, you'll enjoy smooth, flawless start-ups, switching and operation.

### Easy to connect and operate

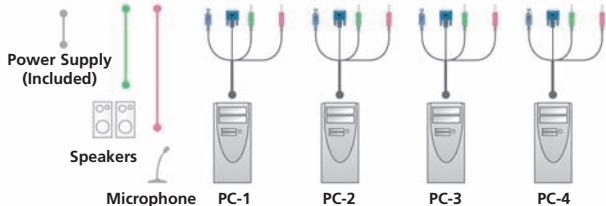

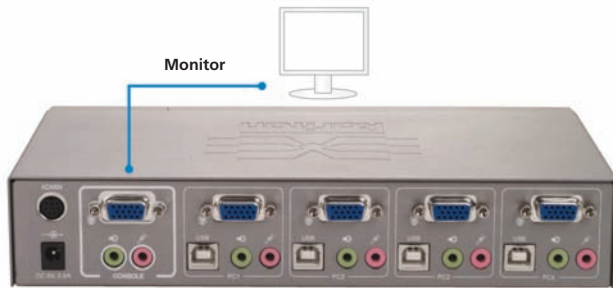

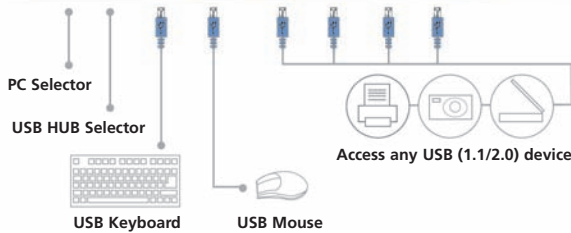

Connect both PCs and/or Apple Macs® (USB versions only) to SwitchMan using Raritan's premium, ultra-thin KVM cables for the highest video and audio quality. Your standard keyboard, mouse and VGA monitor plug into the unit with no software to load or complicated set up. Standard features such as a PC selection button, LED indicators and hot-keys make SwitchMan operation a snap. Operate any of four PCs by simply pushing the corresponding button or hot-key on your keyboard.

When you're ready to take control.™

## SwitchMan USB

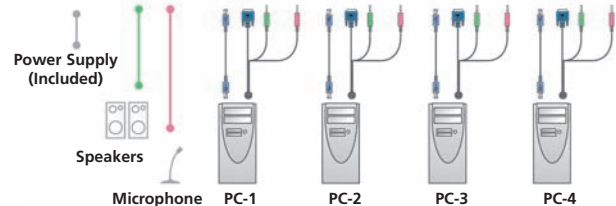

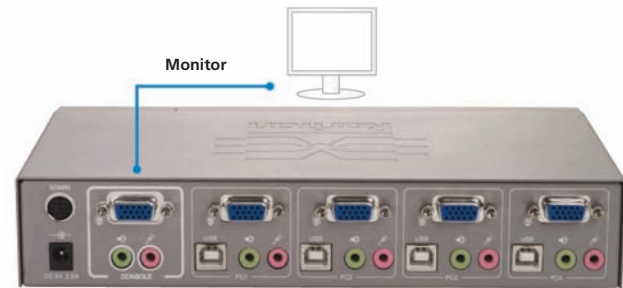

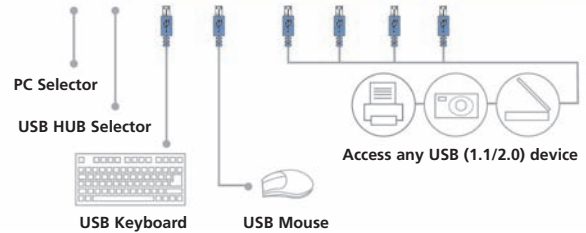

- Save desktop space and consolidate control of your USB connecting computers and USB peripherals
- Share printers, scanners, digital cameras, audio equipment, PDAs and other USB peripherals
- Audio support: Share speakers and microphone for multi-media applications
- Easy installation with color-coded connectors

**Not shown:** Separate Keyboard, Video, Mouse and audio connectors on the PC end of the cable.

## SwitchMan USB-COMBO

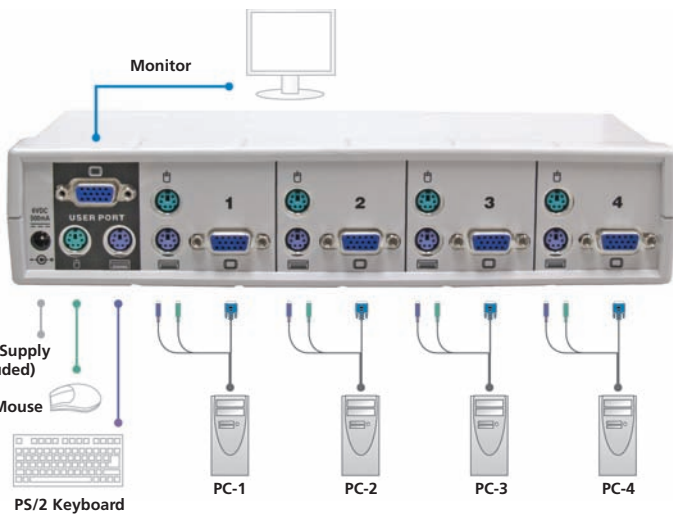

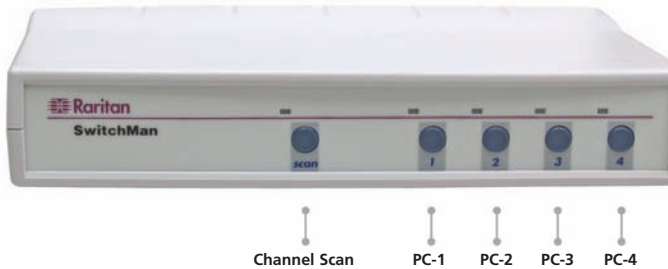

- Save desktop space and consolidate control of your USB and PS/2 connecting computers and USB peripherals
- Share printers, scanners, digital cameras and other USB peripherals
- Audio support: Share speakers and microphone for multi-media applications
- Easy installation with color-coded connectors

**Not shown:** Separate Keyboard, Video, Mouse and audio connectors on the PC end of the cable. PS/2 keyboard and mouse signals integrated in to the video connector at the switch end of the cable.

## SwitchMan PS/2

- Works with PS/2 desktops, workstations, servers, and laptops
- Prevents keyboard lockups through complete keyboard/mouse emulation with dedicated processors for each PC
- Allows switching between PCs from front panel push-buttons with LED indicators or easy hot-key commands
- Offers flawless PC boot-up and operation

**Not shown:** Keyboard, Video and Mouse connectors on the PC end of the cable.

## SwitchMan Cable Plus

Raritan's SwitchMan Cable Plus, a 2-port PS/2 KVM (Keyboard, Video and Mouse) switch with integrated cables, allows you to access and control two computers (PC and/or Mac®) from a single keyboard, monitor and mouse.

This unique approach is the most cost effective way to manage two computers, saving you time, money and space.

- Control two computers from a single PS/2 console
- Save desktop space, time and money
- Compact and portable
- Fast and easy setup

There's no software to configure and no tricky installation. Simply plug the built-in cables into the appropriate computer ports, and you're up and running. SwitchMan Cable Plus works on any hardware platform and all operating systems. Efficient and easy to use, SwitchMan Cable Plus provides a convenient method to access computers via simple hot-key combinations from the keyboard.

## When you're ready to take control, do it with SwitchMan.
